

UNIVERSITY of NORTH TEXAS

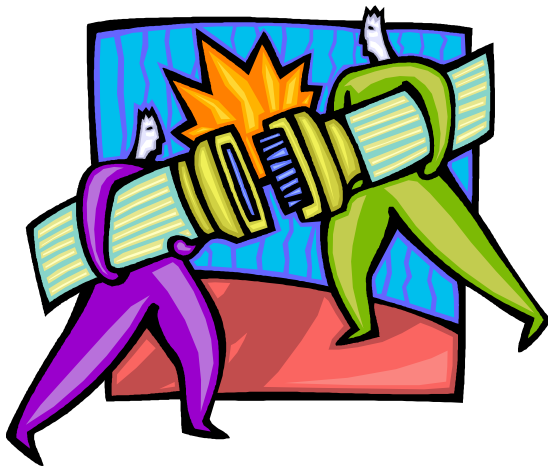

Department of Philosophy and Religion Studies

presents

A Lecture By

Dr. David Kaplan

Paul Ricoeur and the Philosophy of Technology

Finally, it examines what the philosophy of technology has to offer to Ricoeur and his version of hermeneutics. The philosophical study of technology casts a critical light not only on the philosophy of Paul Ricoeur but on contemporary Continental Philosophy as well.

This paper brings the philosophy of Paul Ricoeur into dialogue with the philosophy of technology. It describes Ricoeur's philosophies, explains what the philosophy of technology is and how it relates to traditional philosophical concerns in epistemology, metaphysics, and moral and political philosophy as well as how Ricoeur's works might contribute to our understanding of technology.

David M. Kaplan is an Assistant Professor of Philosophy in the Department of Humanities at Polytechnic University in Brooklyn. His areas of research are the works of French philosopher Paul Ricoeur and the Philosophy of Technology. He is the editor of readings in the Philosophy of Technology (Rowman & Littlefield, 2004), and co-editor of Society, Ethics, and Technology (Wadsworth, 2005). Recently, he has turned his attention to the moral and political dimensions of of technologically modified food and enhancement technologies.

Wednesday, March 2 at 3:30 in EESAT 320A
