presents

A Lecture By

René von Schomberg

European Union Science and Technology Policy: Addressing Societal and Ethical Aspects

Dr. von Schomberg will give a short overview of current European Union science and technology policy

His talk will focus in on science and society issues, for example: how to address ethical issues and aspects of international governance of science and technology.

Dr. von Schomberg is EU Fellow at George Mason University, School of Public Policy, Arlington for the current Fall semester. He has been a Senior Scientific Officer with the European Commission in various positions since 1998, and his current position is with DG Research, Governance and Ethics unit. His areas of interest are in the ethical aspects of new technologies, foresight, technology assessment, use of scientific expertise in policy, and science-society issues.

**Monday, December 10 at
4:00pm in ENV 125**

This lecture is free and open to the public.
